THE AUSTIN NURSERY

F. T. RAMSEY & SON

AUSTIN, TEXAS

List of Stock on Hand January 5, 1909

We can always fill and ship orders within twenty-four hours, and generally on the same day they are received.

In most of the varieties listed we have all the different grades.

We ship until the 1st of April.

We wish to call special attention to our stock of **ELBERTA PEACH** and **BURBANK PLUM**. These are the two varieties of which we have the most in stock at present. They are good everywhere. All sizes up to 7 and 8 feet.

The **TAMARIX** (Salt Cedar) is a tree of very fine, soft foliage, dark green. It will make a small shade, and is excellent for screens and wind-breaks. Grows from the edge of the sea to the top of a mountain. 3 to 4 ft., \$10.00 a 100.

Remember the **CHINESE ARBOR VITAE** for a screen or windbreak about the house or barn lot. It affords a big amount of comfort and benefit to man and beast. See catalogue under **EVERGREENS** and **HEDGES**. 4 to 5 ft., \$15.00 a 100. They soon reach 20 to 30 feet in height.

Of all the good things in Evergreens or small shades, the **LIGUSTRUM JAPONICA** (Japan Privet) is unsurpassed. It is of a sturdy and beautiful growth, ideal for a windbreak or background when planted as a hedge. Or trees, when pruned, will make perfectly shaped specimens valuable for shade, besides possessing their great beauty. They grow 30 feet high, and in some climates make large trees. Planted on plazas in San Antonio and around State Capitol at Austin.
